President Joseph Biden

The White House

1600 Pennsylvania Ave, NW

Washington, DC 20500

**The White House capitulates on its promise to the American People with the deceitful “equity for all” Marxist agenda - a brazenly drastic scaling back of our “justice for all.”**

Dear President Biden,

I wrote to The White House about the 2/16/2023 Executive Order over a month ago. I claimed that “as the consequences of the [order] (effectively equivalent to mandating ‘Jim Crow’-like segregation of Americans into ‘double protected with equity’ and ‘unprotected with no equity at all’ disjoint camps), the directly implied ‘**American Gulag of leftovers**’ can be categorized only as a hateful [Clintonian-base](#) for ‘forced deprogramming’ of masses of Americans [, similar to the Chinese Xinjiang internment camps].”

Since then, through desperate *pro se* and *forma pauperis* efforts (meaning absolutely no assistance from professionals or the government), I was able to docket my simple citizen petition for a writ of certiorari with the U.S. Supreme Court (No. 23-5932) and my new Civil RICO class action complaint against the Commonwealth of Massachusetts et al. with the U.S. District Court in Boston (No. 1:23-cv-12692-PBS).

In my now second SCOTUS petition, I raised the plain question: “The ‘Sec. 8. Affirmatively Advancing Civil Rights ... to prevent and address discrimination and advance equity for all’ clause of the 2/16/2023 Presidential Executive Order results in [Russell's Paradox](#), and it must be corrected as a logically unacceptable conclusion to a less deceitful ‘equity for some.’ Is the mandate to selectively ‘advance equity’ (for only some) Constitutional?” I have no doubts that the Court will deny my layperson petition.

Regardless, to still shore up some [Amicus Curiae](#) support for my petition (pointedly concerning the ever-loud “feminist equity” overriding everything in Massachusetts), I begged our *de facto* feminist leaders:

*“My petition explicitly contrasts the fabricated feminist ‘women never lie’ equity with one’s ‘ultimate’ equity, i.e., one’s true ‘identity,’ that is, one’s unique constitutionally protected personal experiences. In the context of our Constitution and our antidiscrimination statutes, it points to the need to prioritize all possible equities, even all arbitrarily made-up ones.*”

*But I am alone, i.e., infinitely weak, silenced, and enslaved, especially by the Commonwealth of Massachusetts. Being our de facto feminist leader, who solemnly swore to protect our Constitution, if you believe that the feminist ‘women never lie’ equity should not subvert our Constitution, please consider helping my petition with an Amicus Curiae filed with the Supreme Court.”*

The White House could also assist in clarifying to the Supreme Court that the Executive Order does not apply when the Massachusetts Supreme Judicial Court deliberately conceals a **never-contested federal mail fraud** (i.e., the Family Court, while obligated, never communicated crucial decisions and orders).

Without being privy to any decisions of the Massachusetts courts, I suddenly noticed that the previously secret docket entries of my three cases in the Family Court became public on 11/14/2023. I analyzed the revealed data and filed the attached status affidavit. As per the direction of the District Attorney’s office, I contacted our Police Chief regarding a finally substantiated application for a RICO criminal complaint.

Why would a Family Court suddenly release all that verifiably false and deliberately fabricated content? I immediately emailed the parties with my first (emotional) reaction: “It is blatantly shocking that our innocent children’s lives are determined based on such utter incompetence and incoherence.” Marxist agendas, including the simplistic “equity-based” justice, are about limiting capacity. That is, restricting a state’s expended resources to pretend to accomplish the promises. This is a uniquely unAmerican trait.

I can only speculate about the intentions of the Family Court (or the Commonwealth of Massachusetts). With my in-arrears child support obligations now at the impossible \$360,000+ level and my desperate job applications soon reaching 1,800+ compliant submissions, these matters have transcended from a “feminist” problem (i.e., between the two sexes) to a deeply seated **genuine social injustice** problem.

I filed parallel Complaints For Protection From Abuse (G.L.c. 209A), or requests for restraining orders, with the Family Court on 11/9/2023. In them, I concluded that the millionaire “Whole Foods cashier” mother of my now 19-year-old twins does not need (nor want) me around. I also witnessed her having a Massachusetts gun license and gun. However, the mother of my siblings (my youngest one is still only 12 years old) has relied on my significant financial support since the 2/13/2014 Family Court judgment.

Both mothers have been dishonest with the police, courts, etc. A leading female psychiatrist professor at Harvard Medical School characterized them as “**very dangerous borderlines**” and “you have no idea what they are capable of.” From a decidedly “male” (e.g., simplistic, naive, and a mere layman father) perspective, I translate this to “[quite intelligent women wasting tremendous potential by being able to think through problems but not capable of implementing any solutions](#)” (see the attached link below).

In my third SCOTUS petition, and the context of the falsified docket entries, my inquiry boils down to a binary decision between “equity for rich” v. “equity for poor” mother as “equity for all” is impossible by Marxist design. Appealing from a federal adjudicatory body, the Presidential Executive Order is binding.

Respectfully,  
/s/ Imre Kifor<sup>1</sup>, Pro Se

**Does Sovereign Immunity Apply To An “LGBTQ+” State When Using Federal Funds To Subsidize The Forceful Separation And Agenda-Driven Alienation Of Children From Their Loving Parents?**

Dear Elon Musk,

Dear 734 American Billionaires,

Dear Americans,

They say that there are [735 Billionaires](#) in America. I stand without the means to meaningfully contact even one, as I have no “equity” left in my name. I may still have a message regarding our Constitution.

Through a 10+ years-long struggle, massive invalidations, forced indigency, social isolation, and implied house arrest, I was finally able to substantiate my **second petition** in the U.S. Supreme Court, #23-5932, see <https://www.supremecourt.gov/search.aspx?filename=/docket/docketfiles/html/public/23-5932.html>.

Being an apolitical and fiercely independent software engineer, I believe in our “rule of the law.” I was also forced to study both state and federal law. And I began to appreciate the conciseness and true genius of our Constitution. America could not compete with the other “homogenous” world powers without our Constitution, i.e., Tesla (and SpaceX) would not exist. Neither would the so many American billionaires.

Yet, our U.S. Constitution is under a wily Marxist (and Communist) assault. Careless Executive Orders threaten to render it ambiguous and inconsistent. Therefore, I pointed out the vast logical paradox that underlies all Marxist (and Communist) ideals in my petition, a necessarily *pro se / forma pauperis* filing.

My petition is nevertheless weak: I am only one consistently silenced and enslaved “legal alien” voice. [Aleksandr Solzhenitsyn's](#) words were once just as fragile, yet without them, the tyranny of Marxism (and Communism) at work, i.e., **the Gulag Archipelago**, would still be mere “capitalist disinformation.”

Growing up on Marxism (in Communism), I learned my lessons: the ideal is only about stealing other people's money. I am able and capable of making my own. Therefore, I will never be a "revolutionary."

I also experienced on my skin how the tyrannical Marxist State stole people's children (and then used the brainwashed youth to shoot their military guns into the public: at the alienated and "hated parents").

My **third petition** to the U.S. Supreme Court, with a 1/10/2024 filing deadline, will raise the question:

"Does sovereign immunity apply to an 'LGBTQ+' state when using federal funds to subsidize the forceful separation and agenda-driven alienation of innocent children from their loving parents?"

While I have nothing left to my now easily erased name, I still share one thing with the 735 American Billionaires: my children are still existentially significant to me, and, hence, our sacred U.S. Constitution staying protected and intact is still my only hope left. Please consider helping my poor man's (and naive layman's) *forma pauperis* & *pro se* petitions with an [Amicus Curiae](#) filed with the U.S. Supreme Court.
